### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Ted Dengler on January 3, 2008.

The application has been amended as follows:

- a. Withdrawn Claims 1 and 3 have been cancelled.
- b. In Claim 36, on line 4 following "a porous material", the phrase "for collecting" have been deleted and the words —that collects and holds by capillary action— have been added.

2. The following is an examiner's statement of reasons for allowance: The closest prior art, Classon et al. (USP 5,567,309) does not teach or suggest a sample collector system in which the sampling tip is porous and holds the sample by capillary action such that the only way to get the sample into the cavity is to generate an overpressure at the first axial end, pushing the sample liquid up from the sample tip into the cavity of the sample collector.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
